Dearest Friends in Peace,

Thank you for taking an interest in the US Federation for Middle East Peace. We are a non-political not-for-profit organization with consultative status with ECOSOC and associated with the Department of Public Information at the United Nations based in the United States and have branches around the world. We strongly believe in peaceful solutions to even the most difficult situations. The road to peace begin with small steps. Since 2001, USFMEP has become more recognized and acknowledged for planting seeds, breaking down walls and building bridges. Our experience and expertise in negotiation, combined with our diplomatic background has been an integral part of our success.
